WELCOME

Refinery hotel is the opulent reincarnation of the colony arcade building constructed in 1912 as a humming hat factory with an ornate, neo-gothic facade. The decorative early skyscraper model was designed by Frederick C. Zobol, a prolific New York architect. Zobol created an inspired variant of the 19th century “base-shaft-capital” design — in English, that means it had the proportions and aesthetics of a classical Greek column.

From day one, the colony arcade building became ground zero for the era’s rich millinery trade. Frederick C. and his brother Robert R. had chosen their location wisely: the neighborhood was exploding with business and visitors as couture houses and garment factories were setting up shop. It was the beginning of the garment district that we know today — Paris had become exorbitant and redundant for American designers and manufacturers.

Simultaneously, the shopping mecca of Ladies’ Mile, located from 14th to 23rd streets since the turn of the century was moving upwards to Midtown.

It started with Lord & Taylor unveiling its glam window displays on 5th Avenue. Things at 63 W. 38th Street got really exciting when, less than a year after it’s unveiling, one local entrepreneur, Winifred T. McDonald, knocked on the Zobols’ door. Miss McDonald also had a vision: she signed a lease to the 20,000-foot space on the colony arcade’s ground floor and very soon was serving tea (wink, wink) to well-dressed women weary from days shopping and hot meals to the milliners on break from their hard work upstairs. These were the days of the “tea house”, when women were not welcome in the city’s clubs and bars but could establish camaraderie in the women-run salons and expect a “would you like gin or whiskey in that Russian tea?”. As the popularity of hats as a fashion staple waned and the economy of New York became more service-oriented, the building was re-purposed into an office building before its current incarnation as a boutique hotel. With a swanky lobby bar, a trendy restaurant, and a year-round rooftop, Refinery Hotel is a source of new life for New York City’s midtown and garment district neighborhoods.

The spirit of the dapper and hat-wearing Winifred T. McDonald lives on in both design and epicurean ethos. Refinery Hotel has carefully stripped, redefined and preserved the building’s culture and industrial innards. Gothic arched entries and windows surrounded by sculptural quatrefoils, shields and eagles still greet the hustling neighborhood and the hotel’s esteemed guests.

Materials from original water tanks and inner fixtures have been reworked into ceilings and furniture while interiors are detailed with tools of the millinery. Winnie’s lobby bar harnessed the energy, creativity, and sophistication of Miss McDonald by offering premium and artisanal spirits in a refined and elegant venue. Artistry and craftsmanship are on display in our bespoke cocktails, creative menu & live music combining to push boundaries, inspire experimentation, and transport you to a bygone era of glamour and refinement.
